Front End

HTML5 | CSS3 | JavaScript | Python
Ruby | JQuery | Sass | React |
Materialize | Bootstrap

Back End

Ruby on Rails | Node | AJAX | Axios |
Express | MongoDB | Mongoose |
Postgresql | Active Record

Tools

Git | GitHub |
Postman | Heroku

Dream Exhibition

MEN - stack

*Mongoose, MongoDB, Express,
Ajax, Node.js, HTML5, CSS3*

- ❖ Developed a web application to curate art shows that allows users to choose 3 artists, a location, a title of their exhibition, and write an exhibition statement.
- ❖ Peer-programmed using driver and navigator techniques.
- ❖ Collaborated with a partner to develop an effective strategy of organizing workflow, database and view.
- ❖ <https://github.com/emmazingjane/project-01>

Travel Tips

Ruby on Rails

*Ruby, Rails, Gems, PostgreSQL,
HTML5, CSS3*

- ❖ Created a travel app with pre-seeded cities where users make an account, pick the city they have visited and write travel tips they want to share.
- ❖ Peer-programmed using driver and navigator techniques.
- ❖ Managed the site by adding authorization for users.
- ❖ <https://github.com/emmazingjane/travelTips/>

Hungry Mungry's Recipe Book

MERN - stack

*Mongoose, MongoDB, Express,
React, Node.js, Axios, HTML5,
CSS3*

- ❖ Collaborated with a partner to develop a recipe web-application that manages recipes and organizes them by highest vote, allows users to create a recipe, write comments, vote on recipes as well as delete and update posts.
- ❖ Experimented with views by wireframing using HTML and CSS
- ❖ Peer programmed using driver - navigator method.
- ❖ https://github.com/emmazingjane/project3_Mungry

Education

* General Assembly - Full Stack Web Development
Immersive 2018
